

WASHOE COUNTY, NEVADA FEE PROPOSAL

Submitted By:

Eide Bailly LLP

ESTIMATED HOURS AND FEES

Our hours are developed based on our history with Washoe County and expectations of the time and effort needed to complete the audit. Below are our estimated hours and fees for our audit services for the year ended June 30, 2026:

Professional Services – Audit	June 30, 2026
Hours	1,700
Rate	\$182
Base Fee*	\$309,000**
Technology Fee (5%)	\$15,450
Total Fee – Financial Audit (Rounded)	\$324,450

*This reflects a 3% increase from the prior year base fee to be consistent with inflation and market demands in our area.

** The base fee includes four major federal programs subject to the single audit, if Washoe County has over four major programs the County will be charged \$22,000 for each additional major program.

Fee Analysis

The June 30, 2025 audit resulted in total hours of approximately 1,550 hours at a blended rate of \$180 per hour, and three major federal programs. The June 30, 2026 audit is expected to take approximately 1,700 hours with four major federal programs, and the blended hourly rate increased to \$182 per hour. However, please note that hour estimates are subject to change depending on staff leverage and results of audit procedures performed from year to year. The hours above and blended rate are an estimate to demonstrate the approximate level of service provided.

Note: The above hours do not include the audit of the Washoe County OPEB Trust.

Technology Fee

Starting with all our 2024 engagements, Eide Bailly has elected to start explicitly charging a 5% technology fee. Overhead has always been inclusive within our rates prior to 2024, and a technology fee was part of that overhead. However, with the rapid pace of change in technology and data security (including costs in that space), the firm has elected to explicitly show this as a separate line item.
